At Orchard Academy we are

Ready

Respectful

Safe

Spring Term 1 Our School

English

Children are reading and sharing books about 'Our School', including 'In Our School', 'All are Welcome' and 'Once Upon An Ordinary School Day'. They will sequence, label and write about our school. They will explore their own school days and share this using a range of communication methods.

Maths

In Aspen, children will be learning about fractions. They will explore this through sharing using concrete objects and further develop their knowledge of this through intensive interactions, play, and games.

Science

This term, we will learn about sorting and using different materials. Children will explore a range of materials, using and putting them into groups based on knowledge of each material, sight and touch. They will develop knowledge about the purpose of different materials.

EHCP Interventions

Children will have time to focus on achieving their own EHCP targets. These will be explored through intensive interactions with their key workers, allowing growth in all four areas of need: Communication & Interaction, Cognition and Learning, Social Emotional Mental Health and finally Sensory Physical

PSHE

The focus of PSHE this term is sharing. Children will develop their ability to share with others through organised games and activities led by the adults in their classes.

Life Skills

As part of our work around preparing for adulthood, children are working on going out in the community. They are practising crossing the road, following instructions and keeping safe outside of school

Music

Provided by the Music Service

Art

Parks and recreation is the theme of art for Aspen Children. They will explore this by making representations of the things that we might find in these places.
